

Finger Keeper Rear Installation Sheet

Tools & Equipments

- Measuring Block.
- Carpenters Pencil.
- Hacksaw.
- Screwdriver.

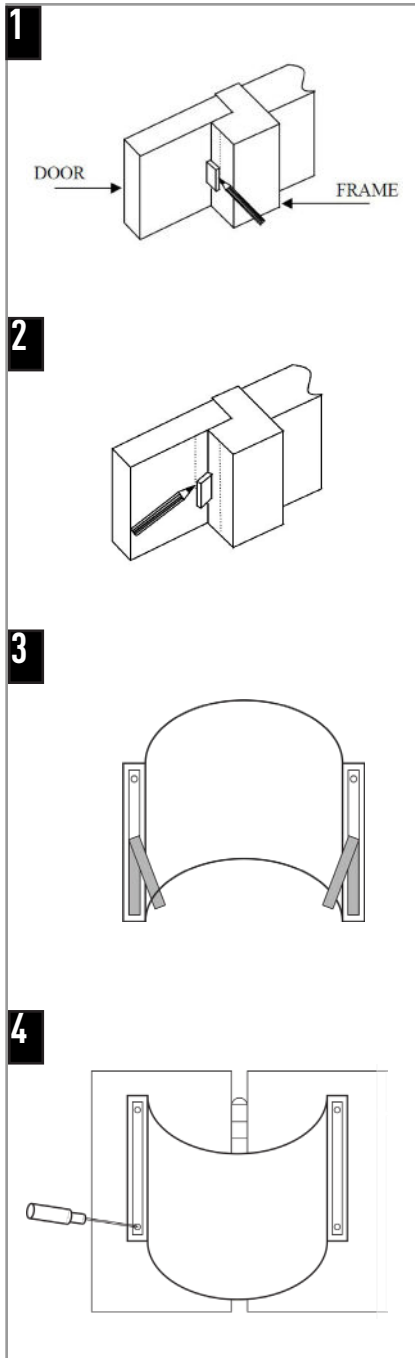

Introduction

Finger Keeper Rear hinge device prevents finger trapping accidents by totally covering the gap that is created on the rear hinge side of a door when it is in the open position. The rear hinge guard device can be fitted to most types of doors including wood, metal and uPVC. The device is considered to be environmentally friendly. Please note: Check condition of door, ie hinges, its vertical plumbness etc. If in poor condition please call us before fitting. As 95% of doors are two metres high Finger Keeper Rear is cut to 77 in length making cutting a very rare requirement during fitting. If you need to cut to size ensure the fingerkeeper Rearguard is not more than 0.8" short of the door top or bottom, unless fitting for toddlers only, ensure no more than 0.8" from the bottom.

Please read this instruction carefully before installing and using the device. The protective function and any possible guarantee of the device might be affected if you do not follow the instructions. Pass the instructions to the end user for future reference. Warning - Replace the device if any part is broken, torn or missing.

Finger Keeper Rear Installation Sheet

Installation

1. With the door in the closed position, use a pencil/pen to draw a guideline on the door frame using 1,2" plastic measuring block (provided).

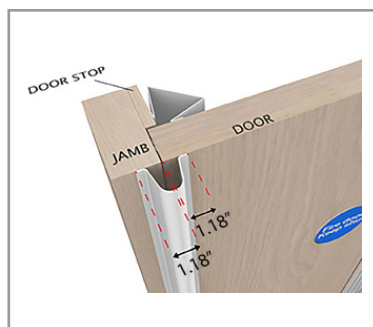

2. Simply repeat the procedure on the door to produce a second guideline.

3. Remove the protective coating from the tape.

4. Line up the edge of the Finger Keeper Rear parallel to the guideline/pencil line on the frame. Press firmly to hold in position before finally securing with the screws (provided). Mount 5mm from floor.

5. Repeat this procedure to attach the Finger Keeper Front to the door itself.

6. Please ensure you use the screws provided or an exactly matching size and type of screw.

Storage & Disposal

Finger Keeper Front should be stored in indoors. No shelf life is given as this product will not deteriorate in storage.
